## APPROVE TRANSFER OF CEDARVILLE R. P. CHURCH AT MEETING

Dayton Presbytery Accepts Congregation Into Body

The last Reformed Presbyterian Church, Grand Synod, in Ohio passed out of existence Monday when the Cedarville congregation of the denomination was admitted to the Dayton Presbytery of the Presbyterian Church of the United States of America.

Recognition of the Cedarville congregation as a Presbyterian body came at a meeting of the Dayton Presbytery at the Dayton Y. M. C. A. Monday.

The Presbytery also received the Rev. W. P. Harriman, pastor of the church, as minister of the new Presbyterian body and approved his installation.

A commission composed of ministers from Xenia, Clifton, Yellow Springs and South Charleston, was appointed by the Rev. Charles Ryan Adams, Springfield, moderator, to go to Cedarville soon and extend a welcome to the incoming congregation.

The petition asking for authorization to withdraw from its present denomination was presented to the Presbytery by the Rev. Charles L. Plymate, executive secretary of the Presbytery.

Others who spoke in favor of the change at the meeting included the Rev. W. H. Tilford, pastor of the Xenia Presbyterian Church; the Rev. D. Earl McKinney, pastor of the Presbyterian Church at Franklin, O., and son of the former president of Cedarville College; Probate Judge S. C. Wright and representative of the Cedarville Church.

The Presbytery meeting was well attended and action of the Cedarville congregation received unanimous endorsement and approval.

The withdrawal reduces the number of Reformed Presbyterian Churches, Grand Synod, in the United States to ten or eleven and increases the number of churches composing the Dayton Presbytery in the Miami Valley to forty-five.

The church is permitted to retain all property rights including the church building and parsonage.

The change affects more than 200 people, a large majority of whom favored it.

### FIRE CHIEF CLAIRE RESIGNS; HANNIFAN HEADS DEPARTMENT

Chief Will Enter Business—Promotion of Lieutenant Fills Vacancy—Kenneth Dice Made Lieutenant Of Firemen

Simultaneously with the disclosure Fire Chief T. B. Claire had tendered his resignation last Saturday, City Manager S. O. Hale announced the appointment of Lieutenant William Hannifan as chief of the Xenia Fire Department.

The resignation of Claire and promotion of Hannifan produced one other major change in the department.

Kenneth Dice, who has served as a special fireman for the past four years, was elevated to the position of lieutenant left vacant by Hannifan.

Claire's resignation was unexpected. It will become effective June 18 when Hannifan will also assume his new duties.

Chief Claire, who came to Xenia from Dayton four years ago, announced he is considering acceptance of one of two offers of positions with business firms in Chicago, Ill. His family will not move from Xenia.

Hannifan has been a member of the Xenia Fire Department for the past four years, serving as lieutenant for slightly more than a year.

Manager Hale's provisional appointment of Dice as lieutenant is effective Wednesday. Dice will be required to submit to a civil service examination later, according to the city manager.

## WORLD TO BENEFIT BY MILLION TAKING COMMUNION AT CONGRESS

Cardinal Says Exhibition of Devotion To Sacrament Should Have Effect On All People—Pilgrims Are On Way.

CHICAGO, June 15.—The entire world will be benefitted as a result of 1,000,000 men and women partaking of Holy Communion at Chicago on Sunday in the belief of George Cardinal Mundelein, archbishop of Chicago and sponsor of the twenty-eighth international Eucharistic Congress.

"The Congress," Cardinal Mundelein said, "is a public demonstration of Catholic faith in Christ, presented in the blessed Eucharist. We shall attract people to Christ, to His teaching and His sacraments and the effect of this is sure to be profoundly beneficial to the city, to the nation and to the world."

Cardinal Mundelein, only recently elevated to a princely position in the Church, promised Pope Pius XI that one million persons would partake of communion at the opening of Chicago's congress. A check will be made in all the city's parishes next Sunday and it is expected that Cardinal Mundelein's promise will be fulfilled.

"The example of one million people going to communion on one morning in a city like Chicago is bound to have a salutary effect on our fellow citizens, irrespective of their creed," Cardinal Mundelein asserted.

"Much of the difficulty with which we have to contend is due to the neglect of His teaching and the absence of faith in Christ."

### AMERICA BECOMING NATION OF PARROTS SCHLESINGER TELLS OHIO STATE UNIVERSITY GRADUATES AT ANNUAL COMMENCEMENT

By United Press. COLUMBUS, O., June 15.—America may become a "nation of parrots" through its zeal for standardization, Dr. A. M. Schlesinger, professor of history at Harvard University declared today at Ohio State University's 49th annual commencement.

"The incessant bombardment of standardized newspapers, magazines, books, movies and plays is causing people not only to use the same slang, sing the same melodies and wear the same clothes," Dr. Schlesinger pointed out, "but even to feel the same emotions and think the same thoughts."

1,000 GRADUATE Approximately 1,000 students were graduated today. Graduates and their parents and friends, listened to Dr. Schlesinger in the coliseum at the Ohio State Fair Grounds.

Discussing the "non-tyranny," Dr. Schlesinger observed that "without a violent stretch of the imagination the typical American of today may be pictured as a man wearing a Knox hat, an Arrow collar, a Manhattan shirt, a Hart, Schaffner & Marx suit and a pair of Walkover shoes, seated in a Ford car, with a Saturday Evening Post under his arm, on his way to the monthly meeting of the National Association for Banishment of Privacy from the American Home."

WE ARE JOINERS America, he continued, has become a land of "joiners."

### CAMPAIGN MANAGER DONATED \$125,000 TO WET CANDIDATE

Total Expenditures Exceed Those In Newberry Case

WASHINGTON, June 15.—William S. Vare, wet, who won the Pennsylvania Republican senatorial nomination over the opposition of the Mellon organization was recalled to the stand today by the senate investigating state primary expenditures.

Senator LaFollette, Republican, Wisconsin, asked Vare about Albert M. Greenfield, head of the Vare committee in Philadelphia.

"Did you on May 11, 1926 sign a vote with Greenfield on the Metropolitan Trust Company?" asked LaFollette.

"I think I endorsed a note," Vare said.

"How much was it for?" LaFollette asked.

"I don't recollect exactly" Vare answered.

Further questioning developed it was for about \$100,000.

"Greenfield said he wanted to make an additional contribution to my campaign, so endorsed the note for him," Vare said.

Later Vare admitted he endorsed a note for his brother-in-law, George D. Groves for \$50,000.

This was in addition to the \$71,000 Vare had admitted he personally contributed to his own campaign and would bring the total that Vare gave and stood for to \$221,000.

In the Newberry case, Senator Truman H. Newberry, of Michigan, resigned from the senate after it was shown he had spent \$195,000.

The Greenfield note was signed by Vare at the Metropolitan Trust company, of which Greenfield is Vice President. Vare could not remember the bank Groves' note was signed, but promised to furnish the information later.

In all Greenfield contributed \$125,000 to the campaign in amounts of \$10,000; \$85,000 and \$30,000.

## RAIN STORMS BRING COOLER WEATHER TO SUPPLANT HOT WAVE

Blame Seven Deaths On Heat Wave and Storms In Wake

BY UNITED PRESS

Wind and electrical storms converging on the Midwest overnight, sent a wave of cooler weather through the Ohio Valley today after one of the most torrid spring days on record.

Two deaths directly attributable to the heat, six drownings and one electrocution were recorded over Monday as the wave moved eastward.

Rain and electrical storms swept through the Ohio Valley late yesterday and during the night causing serious damage in some sections. The crops, as a whole were benefited, according to the state department of agriculture.

Live stock was killed and farm buildings were razed in some localities, however.

Damage estimated at \$75,000 was caused when lightning struck the Main Pumping plant of the Mansfield waterworks.

At Youngstown, the Boardman Power Plant was put out of commission temporarily and in the Toledo area considerable flood damage was caused.

One man died from the heat in Cleveland, another died at Gallipolis, two children were drowned near Lorain, two were drowned near Cincinnati and two were drowned at higher Ohio river points. One man was killed by lightning at Marietta.

Property damage in the Akron region aggregated thousands of dollars. Windows were broken and trees were uprooted by the wind.

An unprecedented rainfall flooded basements and paralyzed traffic. Block streets were washed out in Toledo.

PITTSBURGH, Pa., June 15.—Two persons were killed, three were injured, traffic was interrupted and heavy property damage was caused by an electrical storm which swept Pennsylvania last night and early today. Rev. Anford Landis and William Eckman, were killed at Lancaster, Pa.

Magee faces trial for killing John Lasseter, a bystander during the hotel lobby fight here with former Judge D. J. Leahy, his bitter political foe. It was Leahy who sentenced Magee to jail on his two previous visits to the court here. Magee shot Lasseter while lying helpless on the floor with Leahy kicking and hitting him, according to eye witnesses.

## ATTORNEY GENERAL ANSWERS CHARGE OF GRAFT PROSECUTOR

Says Hasty Action Would Hurt Inquiry In Site Case

COLUMBUS, June 15.—Attorney General Crabbe today emphatically denied attempting to block a grand jury investigation of charges of graft in connection with the proposed purchase of an alternative site for the new state institution for the feebleminded.

The accusation was made by Prosecutor Joseph Fritz of Wayne County in a letter to Governor Vic Donahey who requested Fritz to summon a grand jury after the state board of control revealed "commissions" were to be exchanged if a certain site was purchased.

The sites under consideration were Apple Creek, Wayne County and New London, Huron County. In his letter Fritz revealed Crabbe visited him after the governor requested the inquiry.

"He informed me he has no information about the commission of a crime," Fritz wrote, discussing Crabbe's visit.

"He has no evidence to submit and knows of none. He is unable to furnish me with the name of a single witness. I wonder if you knew this to be the attitude of the attorney general whether you would still care to have an investigation made?"

The governor replied, insisting the investigation be made as originally requested.

"Mr. Crabbe's representations before the board of control were quite the contrary," the governor wrote. "In fact, at a public meeting of the board he insinuated scandalous crimes in connection with the matter. The only way the affair can be settled is by a thorough grand jury investigation of activities of Samuel Bell, holder of options on the Apple Creek site as well as actions of John T. Hogsett, agriculturist of the state welfare department other state officials and everybody concerned."

Crabbe recently charged Hogsett and Bell tried to enter into a "deal" under which Hogsett was to receive a commission if the Apple Creek site was purchased.

"I merely asked Fritz not to call a grand jury investigation until he has had time to gather evidence so the jury could really get to the bottom of the matter," Crabbe declared.

"This is an attempt engineered from Columbus, to whitewash this whole affair, through rushing a grand jury investigation which will not be an inquiry at all."

"Instead of wanting to block a real grand jury probe, I shall myself demand grand jury action if this thing is hushed up. There is sufficient evidence available to prove every charge."

Other interesting continental importations include Andre Mattoni, idol of the pan-Germanic romanticists, Andre E. Dupont, noted director, Edouard Ragina, foremost actor of Russia and the Balkans, and Eugene Schuffert, inventor of a process that is said to be revolutionizing the present system of motion-picture photography.

UNITED STATES TIRES ARE GOOD TIRES

A group of factory buildings on the United States Rubber Company's plantation at Kisanan, Sumatra, including four Sprayed Rubber Producing Units. More of these plants for producing Sprayed Rubber are being built throughout the Far East by the United States Rubber Company.

### Answering some Questions about the New "Sprayed Rubber"

Q—What is Sprayed Rubber?

A—It is an entirely new form of crude rubber produced from rubber latex without the use of smoke or chemicals.

Q—Who produces it?

A—The United States Rubber Company.

Q—Where?

A—In Java and at its rubber plantations in Sumatra and on the Malay Peninsula, by means of a special patented process discovered by its technical staff and by means of special patented apparatus also designed by United States Rubber Company technicians.

Q—What are its advantages?

A—It is used in just the same manner as any other form of crude rubber—but being produced without the use of smoke or chemicals, it is cleaner, more uniform in texture and has a higher tensile strength.

Q—Is it used in building United States Tires?

A—Yes. Millions of pounds of it have been used, and more and more will be used all the time as new plants for producing it are completed by the United States Rubber Company in the Far East.

Q—Does the United States Rubber Company make Sprayed Rubber only from rubber latex from its own plantations?

A—No. The Company considers that Sprayed Rubber is markedly superior to rubber derived from latex by the old methods. Therefore it has located factory units for producing Sprayed Rubber in various rubber producing areas in the Far East, thus supplementing the supply made from the latex from its own trees.

### GREINER-TUREMAN WEDDING SATURDAY

Details of the marriage of Miss Elizabeth Greiner, daughter of Mr. and Mrs. Russell P. Greiner, and Mr. Robert Walpole Tureman, at Kansas City, Saturday evening, will be received with interest by Xenia friends of the bride and her family. Mrs. William Magee Wilson, N. King St., was in attendance at the wedding.

The account of the wedding, as given in the Kansas City Star, was as follows:

Miss Elizabeth Greiner and Mr. Robert Walpole Tureman were married at 8 o'clock last night at the Trinity Methodist Episcopal Church. The Rev. John Benjamin Magee read the service, assisted by Dr. Charles R. Nisbet, before the altar, which was banked with palms, ferns and standards of cathedral candles and calla lilies.

Before the service Mr. and Mrs. Raymond Havens sang "The Anthem of Love," and Mrs. Havens sang "All for You," accompanied by Mrs. James Elliott, who also played the wedding march.

The bride, who was given in marriage by her father, Mr. Russell P. Greiner, wore a bouffant gown of white French tulle with a ruffled tulle overskirt which was high in the front and fell to the floor in the back to form the train. The bodice was tight with dropped shoulders of the ruffled tulle. Her tulle veil was banded with rose point lace and held at the sides with orange blossoms. She carried a shower bouquet of white orchids and lilies of the valley.

Mrs. Sumner E. Fifield was her sister's matron of honor. She wore a gown of pale pink tulle with straight neckline and a pleated georgette overskirt. She carried a horseshoe braid hat filled with pink roses and blue delphinium. The bridesmaids wore Miss Allene Hart, Miss Ada Sikes Tureman and Miss Elly Marie Tureman.

They all wore bouffant gowns of pale pink tulle with pink ruffled tulle overskirts which were high in the front and which dipped to the floor in the back. They carried pink horseshoe braid hats filled with pink roses and blue delphinium. Little Nancy Potet, the flower girl, wore a pink frock made like that of the bride, and a wreath of roses around her hair. She carried a basket of rose petals.

Mr. Charles Cleveland Drennon of Chicago, acted as best man for Mr. Tureman. Mr. Randolph Powell of Philadelphia, Mr. John Joseph Kessinger, Mr. John Edward Stocking, Mr. Charles Fratcher and Mr. William Wilson Michels were the groomsmen. DR. W. B. CALDWELL AT THE AGE OF 83

## "Purges" and "Physics" Bad for Old Folks

While Dr. W. B. Caldwell, of Monticello, Ill., a practicing physician for 47 years, knew that constipation was the curse of advancing age, he did not believe that a "purge" or "physic" every little while was necessary.

To him, it seemed cruel that so many constipated old people had to be kept constantly "stirred up" and half sick by taking cathartic pills, tablets, salts, calomel and nasty oils.

In Dr. Caldwell's Syrup Pepsin he discovered a laxative which helps to "regulate" the bowels of old folks. Dr. Caldwell's Syrup Pepsin not only causes a gentle, easy bowel movement but each dose helps to strengthen the bowel muscles.

It never gripes, sickens or upsets the system. Besides it is absolutely harmless and pleasant to take.

If past fifty, buy a large 60-cent bottle at any store that sells medicine and just see for yourself.

## THE VEGETARIANS

THE vegetarians are holding their world congress in London. Feeling, as such folks always do, that to be different from the common lot is to be superior they are probably having a great time all to themselves, if an organization with a world-wide publicity scheme can be said to be so exclusive.

One wonders if vegetarians are vegetarians because they want to be different, because the thing is a religion to them because they believe a vegetable diet the most healthful, or because they shudder at the thought of taking animal life to satisfy their own appetites. Do they know why they are what they are?

That most meat-eaters would benefit from eating less meat is no doubt true, but it is unnatural for man to live upon either meat or vegetable matter alone. No meat at all may be better than too much, but the same thing is probably just as applicable to the vegetable diet.

After all, do vegetarians actually fool themselves into the delusion that their food supply in nowise involves the taking of animal life? If war were not constantly waged against the myriads of lesser vegetarian creatures there would be no vegetarians for the human vegetarians.

However since vegetarianism is a harmless vagary and since its converts have not yet sought to deprive the carnivorous of their fish, flesh and fowl, those whom it pleases should not be deprived of that pleasure.

## YOUTH AND PLAY

BOYS will be busy and if they are not busy doing good it is a foregone conclusion they will be busy doing evil. This suggests to society that juvenile delinquency ills must be treated by the antidote of healthful activities which leave the irrepressible age no time to get into trouble.

The Boy Scouts movement, boys' clubs, playgrounds, school athletics and summer camps are designed to give youth something to do that will develop it mentally, physically and morally. Boys reached by these institutions and movements have no time to do evil and run no risks of getting into bad company.

In this matter society must choose between two things. It can renounce responsibility for its youth and then pay for the maintenance in reformatories, prisons and other institutions of the victims of its indifference, or it can pay for playgrounds, gymnasiums, athletic fields and boys' organizations and minimize the operating costs of its penal and corrective institutions.

Youth ever is bubbling over with excess energy and must have an escape valve. If given the opportunity of working it off through healthful channels the chances are favorable that it will escape the paths of evil.

The wise community considers well spent the money necessary to provide its youth with proper facilities for play.

# The Theatre

One of these bright mornings a slightly inebriated gentleman will wander into a movie house, sit down comfortably and then suddenly go crazy, yelling "pink elephants."

There's a gentleman called Charley Bowers who can make the most impossible things appear to happen on the screen. Imagine seeing Coolidge and Ford riding on Broadway in a flivver, when they're actually three thousand miles apart! Imagine a bewhiskered lion all dressed up driving an airplane! Imagine an ocean liner hopping about like a top in a stream!

All these things and thousands more will be made possible by Mr. Bowers' new invention. He refused a seven figure offer from a British film company to produce his comedies there; instead he contracted with F. B. O. to make "Whirlwind Comedies; Gales of Laughter." They are not animated drawings, but real honest-to-goodness people and objects doing incredible things right before your eyes. The process is entirely secret.

Women in politics have at last been chosen as a topic for a film. We've been expecting it for some time. "Her Honor, the Governor," has been announced by F. B. O. from the story by Hyatt Daub and Weed Dickinson, revolving about the woman in politics. Pauline Frederick will play the title role, supported by Carroll Nye, Greta Von Rue, Boris Carroll, Tom Santschi and others.

With the news of Lieut. Byrd's successful flight over the North Pole Al Cooke and Kit Guard film comedians, have begun a similar expedition to the South Pole. Cooke and Kit will fly in their Equator Six and are taking only four pairs of B. V. D.'s and some ice water. They have promised all of Hollywood souvenirs.

Lee Shubert, now in London, received press reviews by cable of "The Merry World," the international revue at the Imperial, New York, and was so impressed with the reception given by the association of American and English revue ideas, that he radioed in

### Salesgirls Dread Bargain Days

Louisa was tired. From morning until night she had been on her feet in the busy department store. No matter how she felt, she must serve her customers with a smile. Her head throbbed and her feet ached. Week after week, she felt her strength ebbing until she was in a run-down condition, not fit to work.

"My mother suggested that I try Lydia E. Pinkham's Vegetable Compound," she writes. "I took only three bottles and it brought me about all right." Through the Vegetable Compound, she found better health to do her work and she told the other girls about it.

That was several years ago. Louisa is now Mrs. L. J. Van Dyke of 1246 Spring St., Morrell Park, Baltimore, Md. She is the mother of three healthy, active children. She says that she found the tonic effect of the Vegetable Compound helpful to her during this entire period.

Every working girl knows that to do her work properly and easily she must have good health. She can not afford to lose time from her work. Girls who suffer from a run-down condition should try Lydia E. Pinkham's Vegetable Compound.

The fact that the county seat was established in Xenia Twp. makes the history of the township center in the county seat, Xenia.

Xenia has contained more than half the population of the township for at least 100 years, and for a number of years it has contained about one-third of the population of the entire county.

So many of the early settlers of the township were residents of Xenia there is little to say concerning those who settled in the township outside the city.

Again, so many of the land-owners lived in Xenia they are identified with the city rather than with the township.

Prominent among the early settlers of Xenia and Xenia Twp. are the following: Frederick Bonner, David Laughhead, Henry Hypes, the McCoy family, Hugh Andrew, the Gibson family, Edward Watts, Col. James Morrow, Samuel Coe, James Butler, Thomas Perkins, Remembrance Williams, the Gowdy family, John Lewis, Bennett Maxey, Peter Pelham, Isaac Maitland, Major William Beatty, the Gallo-way family, Thomas Steele and scores of other families.

### Just Folks

BY EDGAR A. GUEST

### THE STICKY MORNING KISS

A sticky face upraised to mine,  
All smeared with toast and  
strawberry jam,  
With eyes that radiantly shine,  
And pleaded to kiss that face I  
am.

Straight from the breakfast room  
she comes,  
A napped, laughing little miss  
Who gives no thought to jam or  
crumbs,  
But wants her daddy's farewell  
kiss.

Sometimes there's jam upon my  
cheek,  
Sometimes there's butter on my  
chin,  
Those fingers often leave a streak  
To mark the path where they  
have been.

A sticky kiss! That's true I say,  
A blend of love and strawberry  
jam  
A glorious way to start the day!  
Oh, what a lucky man I am!

## ITCHY PIMPLES FOUR YEARS

Formed Sore Eruptions.  
Cuticura Healed.

"My face broke out with small  
pimples. Some of them soon dis-  
appeared, while others remained a  
long time and formed sore eruptions.  
The pimples itched and  
burned causing me to scratch, and  
the eruptions disfigured my face. I  
was bothered with them for about  
four years.

"I tried different remedies but  
they did not do much good. I read  
an advertisement for Cuticura Soap  
and Ointment and sent for a free  
sample. After using it I purchased  
more and in about a month and a  
half I was healed." (Signed) Mrs.

## Today's Talk

### IT ISN'T WHAT YOU HAVE

Most of us make the mistake of  
judging a man or woman by what  
he or she has.

It isn't what you have, it's what  
you give that counts.

When that woman in the Bible  
stepped up and gave her mite—  
which was all she had in the  
world, Jesus immediately com-  
mented upon the fact and gave  
her as an example to the world  
of one who gave real wealth—for  
she gave of herself as well.

If you cash in yourself and give  
it gladly, this means more than  
the gold of the richest, no matter  
how large and rich the gift.

When a human being gives  
beauty out of his heart, it is as  
the perfume from the flower which

gives of all it has.

It isn't what you have, but  
what you give of what you have.  
When the rich young ruler came  
to Jesus and told him that he was  
interested in his work and want-  
ed to follow Him, Jesus saw at  
once that he loved money and so  
told him that he should go and  
sell all that he had and then to  
come and join Him. But when  
the young man heard that, he  
went away very sad for he was  
in love with what he had.

We must love the one to whom  
we give far more than the thing  
we give. Or else our gift is bare  
and barren.

It isn't what you have. If you  
have life you have more than any  
material gift of life. Give of what  
you are. And give lavishly, glad-  
ly.

It's what comes back that gives  
happiness—remember that.

### Mitzi's Mitzi

### MITZI PLANS FOR THE TOURNAMENT

Mitzi is enthusiastic about tennis. It's a pretty  
sport, especially when one wears a tennis costume  
that a certain tennis champion made popular. It is  
a sleeveless white crepe de chine dress with a green  
cardigan sweater. The hard-won cups in the back-  
ground give the atmosphere of championship.

Mitzi does look modest. Or is it guilty? She has  
been inspecting the cups in the background very  
closely. What does she want? One should decide  
first and then take up the sport of winning it.  
Mitzi wears a most becoming tailored two-piece  
dress made of madras shirting material.

Golf is such a fascinating game. Mitzi is think-  
ing that it should be taken seriously. Here you  
see her looking very handsome in a sweater with  
stripes across it. Perhaps it would be nice to win  
a cup or two and have one's name engraved across  
the front, Mitzi thinks.

This street costume means that Mitzi has given  
up sports. Some one elected her Chairman of the  
Committee to buy trophies. That places her in an  
awkward position. How can she go out and win  
the cup she has bought herself? (Personally we  
feel that the only cup Mitzi will ever possess is  
the one she buys herself).

## INDIANS LOSE TILT TO BELLBROOK NINE

Pitcher Lucas struck out twelve batters but was ineffective with runners on bases and the Xenia Indians lost for the second time 6 to 3 to Bellbrook, Sunday afternoon at Ringer Park.

The Indians outthrew the visitors fourteen to ten but failed to use their safeties to best advantage. Three double plays by the Bellbrook infield also killed promising Xenia batting rallies.

McCarthy enjoyed a field day at bat for Xenia crashing out four hits in five times up.

The Indians will open a three-game series with Morrow next Sunday afternoon at Ringer Park.

Manager Minor announces a new battery has been signed up for the initial contest and that several new faces will also appear in the infield.

BERNARR MACFADDEN

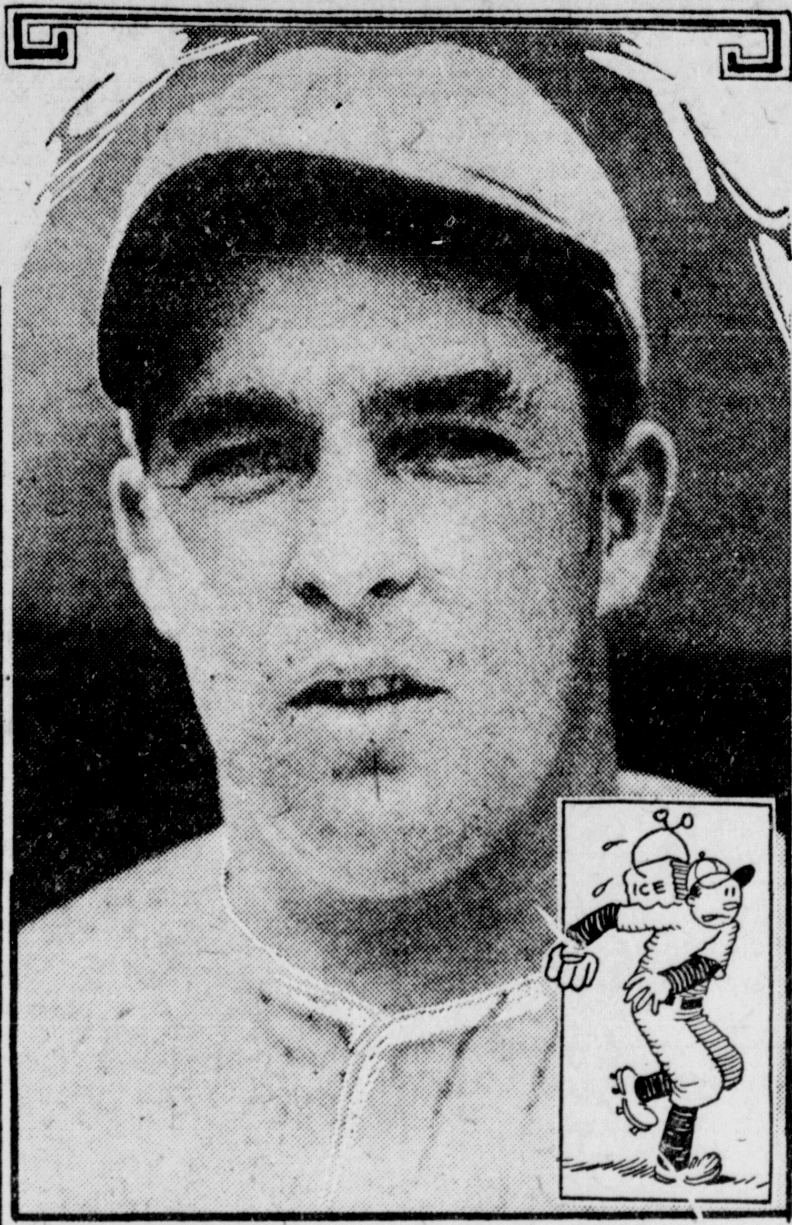

**Health Hints**  
by the Father of Physical Culture

Fasting is the most valuable of all forms of treatment for overcoming the pathologic condition of the body brought about by habitual use of drugs. Fasting gives the body an opportunity to readjust itself in a normal way and also hastens the elimination of any poison remaining in the system. The drug fiend has lost his appetite anyway, and by means of a fast will regain a normal condition of the alimentary canal in a fraction of the time that would otherwise be consumed in this process. Especially, the mind will clear and gain in strength, and he will much sooner find himself in possession of the moral impulse and the will to fight the habit.

Because of the deplorable weakened condition of the body and the emaciation caused by the drug, an extended fast may not be possible in the beginning and I would suggest a series of short fasts gradually increasing in length—fasting for one meal, after which eating two meals, fasting one day, after which eating for two days, fasting three days after which eating for six days, etc. Continue this process, making your eating periods three times as long as your fasting periods until the desired results have been secured. If the patient still has sufficient vitality, however, a fast of one or two weeks immediately following the sudden discontinuance of the drug, would certainly be the best plan.

By way of special treatment, attention should be given to the nerves. I have already referred to the warm bath in case of mania but in other cases where there is much apparent nervous excitement, a neutral bath (65 degrees to 95 degrees Fahrenheit) lasting one hour may be recommended. This will probably not be necessary for more than a few days, and after that, or from the beginning if the patient is sufficiently vigorous, a combined cold half bath and spinal affusion may be recommended. The patient should be rubbed while in the half bath (coated with legs and hips immersed in the water, at 80 degrees to 85 degrees Fahrenheit) this to continue for ten minutes, while two or three times during this bath water at a temperature of 60 degrees to 70 degrees F. should be poured over the back of the neck and down the spine.

## Keeps Cool in Hot Water

Fred Fitzsimmons, young pitcher with the New York Giants, is drawing attention these days as he labors to bolster the wobbling staff of the team. Fitz is by no means a graceful hurler and seems constantly about to find himself in hot water as a result of a few hits or passes, but his calmness under fire has saved the day for him frequently.

## YOUNG IRISHMAN IS WINNING MEDALIST FOR BIG GOLF TITLE

WILLOWICK, Country Club, June 15.—A red-faced, sandy-haired young Irishman with a turned up nose ran into a telegraph station at Willowick late Monday night and scribbled happily on a cablegram blank.

Some time today in the village of Portruss, nestled in the green hills of Antrim County, Ireland, a motherly little woman will read with shining eyes how her boy, John, who immigrated to America when he was scarcely big enough to button his own suspenders, won his first major golf medal.

He now steps into national limelight with other qualifying medalists of the country as a contender for the United States open crown at Columbus next month.

Who is Jack Thompson? The gallery asked Monday when cards were posted in the starters' tent. A big crowd had swarmed all day at the heels of Larry Nabholz, Lloyd Gullickson, George Hargent and D. K. White.

Not a soul trailed the little, sunburned Irish lad. He played shot after shot in silence.

When the leading players from Ohio, Kentucky, West Virginia, Pennsylvania and New York had posted their best, the young colt, unharmed by a gallery, unsung by fair way experts, flashed through with a brilliant 141 to take the medal.

Thompson shapes up as Ohio's best bet at Scioto July 8 to 10. He was born at Portruss, Ireland, 22 years ago. He started playing at 5. He starred in his teens at Darvick in Antrim where he played quite a bit with Major Hazlett, who was prominent in the recent British amateur. Thompson emigrated to America and came directly to Cleveland where he served as assistant pro to Rudy Felitz for three years. He now is assistant to his brother Bill at Congress Lakes.

## SUPREME TRIBUNAL REVERSES COURT IN CONVICTION OF MEN

COLUMBUS, O., June 15.—The state supreme court today reversed the conviction of Solomon Peskind, Benjamin Karp and Merrit A. Vinson, of Cleveland in connection with the failure of the Municipal Savings and Loan Company of Cuyahoga county.

Karp and Peskind were convicted in Common Pleas Court, of embezzlement and misappropriation of \$2,000 and their sentences were affirmed by the Cuyahoga court of appeals.

Peskind was found guilty of perjury in connection with a financial

## Acid Stomach

"Phillips Milk of Magnesia"  
Better than Soda

Hereafter, instead of soda take a little "Phillips Milk of Magnesia" in water any time for indigestion or sour, acid, gassy stomach and relief will come instantly.

For fifty years genuine "Phillips Milk of Magnesia" has been prescribed by physicians because it overcomes three times as much acid in the stomach as a saturated solution of bicarbonate of soda, leaving the stomach sweet and free from all gases. It neutralizes acid fermentations in the bowels and gently urges the souring waste from the system without purging. Besides, it is more pleasant to take than soda. Insist upon "Phillips". Twenty-five cent bottles, any drug store.

## BASS SEASON WILL OPEN ON WEDNESDAY

Devotees of the lake and stream will be in their element Wednesday, which marks the first day of the open season for bass fishing, according to Karl Keller, game protector.

Keller announces that in the inland fishing district of the state black bass may be caught only from June 16 to April 30, 1927, both inclusive, giving fishermen more than ten months in which to enjoy this sport.

Black bass less than eleven inches in length may not be taken and no fisherman may catch more than twelve in any one day. Penalties provided for violation of these laws will be assessed, the game protector warns.

Many parts of the county where spawning has been in progress are now open for fishing.

## MARSH FOUNDATION NOT SUBJECT TO TAX SATIS STATE COURT

COLUMBUS, O., June 15.—The state supreme court today reversed the court of appeals of Van Wert County and the trustees of the Marsh foundation of Van Wert, won their fight to enjoin the collection of taxes on the foundation's real estate.

The trustees had claimed the real estate was non-taxable because it was used for charitable purposes.

This contention was sustained by the court.

The will of George H. Marsh, created the "Marsh foundation," a public charitable and educational trust. During 1922 and 1923, the auditor of Van Wert County, placed the real estate owned by the foundation on the county tax duplicate and declared taxes should be collected by the county.

Judge Harry L. Conn, state superintendent of insurance, as one of the trustees of the foundation brought suit in Van Wert common pleas court to enjoin the collection of taxes on the ground the foundation was "purely a public charitable and educational trust." The Van Wert Common Pleas Court decided in favor of the trustees and enjoined the county from collecting taxes during these two years.

But a decision of the court of appeals held that inasmuch as the foundation had not "pursued full and complete administrative remedy for the correction of wrongs" taxes were to be paid the county. The supreme court decision today reverses the appeals court.

MAYOR'S PROCLAMATION GIVES SESQUI-CENTENNIAL PLANS

Plans for Xenia and Greene County's part in the nation-wide celebration of "American Independence Week" were practically perfected at a meeting of Xenia business men with Mayor John Prugh at city hall Monday afternoon.

A three-day program of observance has been outlined and it is urged that a united and uniform effort be made in accordance with the program for the week from June 28 to July 5, inclusive.

Mayor John Prugh invites active support of the plans and has promised a special message in the form of a proclamation calling upon the public of the county to join in carrying out the patriotic and educational features of the program. His proclamation follows:

"A bell service will be held at noon Monday, June 28, 'Patriots' Pledge of Faith Day.' The mode of procedure will take the form of bell ringing as the 'Echo of Liberty Bell.' At 11:11 a. m. either the fire bell or Court House bell will be tapped thirteen times, one stroke for each original state. At the end of the bell ringing all work and activities will cease during a five-minute silent period.

"Then for five minutes all citizens are asked to uncover and

heads of all industries, department heads and factory and business heads will read the oath of allegiance to our flag to employees re-dedicating their loyalty to their country.

"Then at three taps of the bell, all bells and whistles of schools, churches and factories will blow for five minutes.

"A community service is scheduled for Monday evening at 7:30 o'clock. All citizens of the county are asked to meet at the Court House for a band concert and a short patriotic address by County Auditor R. O. Wead with a general jubilation afterwards.

"Thursday night, July 1 there will be a community sing embracing the entire county when citizens will join in the combined singing of the old-fashioned patriotic songs.

"On Sunday, July 4, 'Jefferson Centennial Day,' celebrating the 100th anniversary of the death of Thomas Jefferson, author of the declaration of independence, the various churches will have patriotic sermons and music. Let us have everybody in church."

During the colorful three-day observance citizens and merchants are requested to display the American flag in front of business houses and at residences. Merchants should also decorate their stores in patriotic colors, it is said.

## APPROVE TRANSFER OF CEDARVILLE R. P. CHURCH AT MEETING

Dayton Presbytery Accepts Congregation Into Body

The last Reformed Presbyterian Church, Grand Synod, in Ohio passed out of existence Monday when the Cedarville congregation of the denomination was admitted to the Dayton Presbytery of the Presbyterian Church of the United States of America.

Recognition of the Cedarville congregation as a Presbyterian body came at a meeting of the Dayton Presbytery at the Dayton Y. M. C. A. Monday.

The Presbytery also received the Rev. W. P. Harriman, pastor of the church, as minister of the new Presbyterian body and approved his installation.

A commission composed of ministers from Xenia, Clifton, Yellow Springs and South Charleston, was appointed by the Rev. Charles Ryan Adams, Springfield, moderator, to go to Cedarville soon and extend a welcome to the incoming congregation.

The petition asking for authorization to withdraw from its present denomination was presented to the Presbytery by the Rev. Charles L. Plymate, executive secretary of the Presbytery.

Others who spoke in favor of the change at the meeting included the Rev. W. H. Tilford, pastor of the Xenia Presbyterian Church; the Rev. D. Earl McKinney, pastor of the Presbyterian Church at Franklin, O.; and son of the former president of Cedarville College; Probate Judge S. C. Wright and representative of the Cedarville Church.

The Presbytery meeting was well attended and action of the Cedarville congregation received unanimous endorsement and approval.

The withdrawal reduces the number of Reformed Presbyterian Churches, Grand Synod, in the United States to ten or eleven and increases the number of churches composing the Dayton Presbytery in the Miami Valley to forty-five.

The church is permitted to retain all property rights including the church building and parsonage.

The change affects more than 200 people, a large majority of whom favored it.

## FIRE CHIEF CLAIRE RESIGNS; HANNIFAN HEADS DEPARTMENT

Chief Will Enter Business—Promotion of Lieutenant Fills Vacancy—Kenneth Dice Made Lieutenant Of Firemen

Simultaneously with the disclosure Fire Chief T. B. Claire had tendered his resignation last Saturday, City Manager S. O. Hale announced the appointment of Lieutenant William Hannifan as chief of the Xenia Fire Department.

The resignation of Claire and promotion of Hannifan produced one other major change in the department.

Kenneth Dice, who has served as a special fireman for the past four years, was elevated to the position of lieutenant left vacant by Hannifan.

Claire's resignation was unexpected. It will become effective June 18 when Hannifan will also assume his new duties.

Chief Claire, who came to Xenia from Dayton four years ago, announced he is considering acceptance of one of two offers of positions with business firms in Chicago. His family will not move from Xenia.

Hannifan has been a member of the Xenia Fire Department for the past four years, serving as lieutenant for slightly more than a year.

Manager Hale's provisional appointment of Dice as lieutenant is effective Wednesday. Dice will be required to submit to a civil service examination later, according to the city manager.

## FINANCE MINISTER RESIGNS POSITION IN FRENCH CABINET

Briand May Quit Also As Franc Still Drops

PARIS, June 15.—Roaul Peret, minister of finance, resigned today and Premier Briand was expected to resign this evening unless he could satisfactorily remodel his cabinet.

Peret charged he had not received support essential to his effort to save the treasury from bankruptcy.

Premier Briand's crippled cabinet today obtained what was tantamount to a vote of confidence when the chamber of deputies, 309 to 195 voted to postpone until Thursday, selection of a date for debate of the financial situation.

Briand sought to defer the debate pending solution of the cabinet crisis arising from the resignation of Peret.

Although it was believed Briand had not yet decided to resign, several members of the cabinet intended to resign with Peret today but agreed to defer their action pending Briand's thorough examination of the situation.

The franc slumped to a new low mark on news of Peret's resignation. It opened at 36.35 to \$1 and later went to 37.

Peret's complaint regarding lack of support presumably refers to refusal of the directors of the Bank of France to permit the.

## WORLD TO BENEFIT BY MILLION TAKING COMMUNION AT CONGRESS

Cardinal Says Exhibition of Devotion To Sacrament Should Have Effect On All People—Pilgrims Are On Way.

CHICAGO, June 15.—The entire world will be benefitted as a result of 1,000,000 men and women partaking of Holy Communion at Chicago on Sunday in the belief of George Cardinal Mundelein, archbishop of Chicago and sponsor of the twenty-eighth international Eucharistic Congress.

"The Congress," Cardinal Mundelein said, "is a public demonstration of Catholic faith in Christ, presented in the blessed Eucharist. We shall attract people to Christ, to His teaching and His Sacraments and the effect of this is sure to be profoundly beneficial to the city, to the nation and to the world."

Cardinal Mundelein, only recently elevated to a principality in the Church, promised Pope Pius XI that one million persons would partake of communion at the opening of Chicago's congress.

A check will be made in all the city's parishes next Sunday and it is expected that Cardinal Mundelein's promise will be fulfilled.

"The example of one million people going to communion on one morning in a city like Chicago is bound to have a salutary effect on our fellow citizens, irrespective of their creed," Cardinal Mundelein asserted.

"Much of the difficulty with which we have to contend is due and to the neglect of His teaching to the absence of faith in Christians."

"Nobody doubts that Europe

# AMERICA BECOMING NATION OF PARROTS SCHLESINGER TELLS OHIO STATE UNIVERSITY GRADUATES AT ANNUAL COMMENCEMENT

By United Press. COLUMBUS, O., June 15.—America may become a "nation of parrots" through its zeal for standardization, Dr. A. M. Schlesinger, professor of history at Harvard University declared today at Ohio State University's 49th annual commencement.

"The incessant bombardment of standardized newspapers, magazines, books, movies and plays is causing people not only to use the same slang, sing the same melodies and wear the same clothes," Dr. Schlesinger pointed out, "but even to feel the same emotions and think the same thoughts."

1,000 GRADUATE Approximately 1,000 students were graduated today. Graduates and their parents and friends lined up to Dr. Schlesinger in the coliseum at the Ohio State Fair Grounds.

Discussing the "non-tyranny," Dr. Schlesinger observed that "without a violent stretch of the imagination the typical American of today may be pictured as a man wearing a Knox hat, an Arrow collar, a Manhattan shirt, a Hart, Schaffner & Marx suit and a pair of Walkover shoes, seated in a Ford car, with a Saturday Evening Post under his arm on his way to the monthly meeting of the National Association for Banishment of Privacy from the American Home."

WE ARE JOINERS America, he continued, has become a land of "joiners."

## CAMPAIGN MANAGER DONATED \$125,000 TO WET CANDIDATE

Total Expenditures Exceed Those In Newberry Case

WASHINGTON, June 15.—William S. Vare, wet, who won the Pennsylvania Republican senatorial nomination over the opposition of the Mellon organization was recalled to the stand today by the senate investigating state primary expenditures.

Senator LaFollette, Republican, Wisconsin, asked Vare about Albert M. Greenfield, head of the Vare committee in Philadelphia.

"Did you on May 11, 1926 sign a vote with Greenfield on the Mellon organization Trust Company?" asked LaFollette.

"I think I endorsed a note," Vare said.

"How much was it for?" LaFollette asked.

"I don't recollect exactly" Vare answered.

Further questioning developed it was for about \$100,000.

"Greenfield said he wanted to make an additional contribution to my campaign, so endorsed the note for him," Vare said.

Later Vare admitted he endorsed a note for his brother-in-law, George D. Groves for \$50,000.

This was in addition to the \$71,000 Vare had admitted he personally contributed to his own campaign and would bring the total that Vare gave and stood for to \$221,000.

In the Newberry case, Senator Truman H. Newberry, of Michigan, resigned from the senate after it was shown he had spent \$195,000.

The Greenfield note was signed by Vare at the Metropolitan Trust Company, of which Greenfield is Vice President. Vare could not remember the bank where Groves' note was signed, but promised to furnish the information later.

In all Greenfield contributed \$125,000 to the campaign in amounts of \$10,000; \$55,000 and \$30,000.

## RAIN STORMS BRING COOLER WEATHER TO SUPPLANT HOT WAVE

Blame Seven Deaths On Heat Wave and Storms In Wake

BY UNITED PRESS Wind and electrical storms converging on the Midwest overnight, sent a wave of cooler weather through the Ohio Valley today after one of the most torrid spring days on record.

Two deaths directly attributable to the heat, six drownings and one electrocution were recorded over Monday as the wave moved eastward.

Rain and electrical storms swept through the Ohio Valley late yesterday and during the night causing serious damage in some sections. The crops, as a whole were benefited, according to the state department of agriculture.

At Youngstown, the Boardman Power Plant was put out of commission temporarily and in the Toledo area considerable flood damage was caused.

One man died from the heat in Cleveland, another died at Gallipolis, two children were drowned near Lorain, two were drowned near Cincinnati and two were drowned at higher Ohio river points. One man was killed by lightning at Marietta.

Property damage in the Akron region aggregated thousands of dollars. Windows were broken and trees were uprooted by the wind.

An unprecedented rainfall flooded basements and paralyzed traffic. Block streets were washed out in Toledo.

## ATTORNEY GENERAL ANSWERS CHARGE OF GRAFT PROSECUTOR

Says Hasty Action Would Hurt Inquiry In Site Case

COLUMBUS, June 15.—Attorney General Crabbe today emphatically denied attempting to block a grand jury investigation of charges of graft in connection with the proposed purchase of an alternative site for the new state institution for the feebleminded.

The accusation was made by Prosecutor Joseph Fritz of Wayne County in a letter to Governor Vic Donahey who requested Fritz to summon a grand jury after the state board of control revealed "commissions" were to be exchanged if a certain site was purchased.

The sites under consideration were Apple Creek, Wayne County and New London, Huron County. In his letter Fritz revealed Crabbe visited him after the governor requested the inquiry.

"He informed me he has no information about the commission of a crime," Fritz wrote, discussing Crabbe's visit.

"He has no evidence to submit and knows of none. He is unable to furnish me with the name of a single witness. I wonder if you knew this to be the attitude of the attorney general whether you would still care to have an investigation made?"

"The governor replied, insisting the investigation be made as originally requested."

"Mr. Crabbe's representations before the board of control were quite the contrary," the governor wrote. "In fact, at a public meeting of the board he insinuated scandalous crimes in connection with the matter. The only way a fair can be settled is by a thorough grand jury investigation of activities of Samuel Bell, holder of options on the Apple Creek site as well as actions of John T. Hogsett, agriculturist of the state welfare department other state officials and everybody concerned."

Crabbe recently charged Hogsett and Bell tried to enter into a "deal" under which Hogsett was to receive a commission if the Apple Creek site was purchased.

"I merely asked Fritz not to call a grand jury investigation until he has had time to gather evidence so the jury could really get to the bottom of the matter," Crabbe declared.

"This is an attempt engineered from Columbus, to whitewash this whole affair, through rushing a grand jury investigation which will not be an inquiry at all."

"Instead of waiting to block a real grand jury probe, I shall myself demand grand jury action if this thing is hushed up. There is sufficient evidence available to prove every charge."

## EDITOR ON TRIAL FOR THIRD TIME

LAS VEGAS, N. M., June 15.—In the same little red stone court house where he was twice sentenced to jail for criminal libel and contempt, Carl C. Magee, militant editor of the New Mexico State Tribune, goes on trial today for manslaughter.

Slated as the first case on the docket for the June term of the San Miguel County court, Magee's trial was expected to begin immediately upon the convening of the afternoon session.

Magee faces trial for killing John Lasseter, a bystander during the hotel lobby fight here with former Judge D. J. Leahy, his bitter political foe. It was Leahy who sentenced Magee to jail on his two previous visits to the court here. Magee shot Lasseter while lying helpless on the floor with Leahy kicking and hitting him, according to eye witnesses.

## REFUSES TO REVIEW CASE OF MURDERER

COLUMBUS, O., June 15.—The state supreme court today declined to review the case of Frank Liska, Cleveland wife murderer condemned to die on July 18.

Liska was convicted of killing his wife and burning her body in a chicken-coop. The lower courts of Cuyahoga County sentenced him to death.

The condemned man's attorney said he would appeal to the Governor and the state board of clemency. Liska killed his wife during a jealous rage.

## DENY APPEAL

COLUMBUS, O., June 15.—The state supreme court today overruled the appeal of former mayor F. A. Koppe, of Logan, who was convicted in the lower courts of Hocking County on charges of embezzling \$400 paid as a liquor fine.

GERMANIZATION OF AMERICAN FILM  
MAKING TAKING PLACE IN HOLLYWOOD

HOLLYWOOD, June 15.—German genius and industry are invading Hollywood with steadily increasing force, and today the Teutonic influence all but dominates movie-making in some of the American studios.

With the mammoth UFA, Berlin's great film studio, as an alma mater, American companies are drawing upon Germany for stars, directors, technical men and writers.

The effect is already noted in several studios, where the types of stories and the technique employed in the picturizations are fast becoming Germanized, with German actors and technicians making the films.

Emil Jannings, Ernst Lubitsch, Hans Kraly, Pola Negri, Lay de Putti, F. W. Murnau, and many others, all graduates of the German School, are playing foremost positions in American motion-picture production. Other German picture personages are arriving each week.

Famous Players-Lasky has just brought to Hollywood the former producing chief for UFA, Eric Pommer. He will be a producer for the Paramount film, making three super-specials as a starter featuring Miss Negri and Jannings, who was formerly a great dramatic star in Germany.

Another late importation from Germany is Paul Leni, noted UFA artist and director. Leni, brought to Hollywood by Universal Pictures Corporation, was known in Europe for his portrait painting, as well as his film directing. He directed Jannings in several European film successes.

Other interesting continental importations include Andre Mattoni, idol of the pan-Germanic romanticists, Andre E. Dupont, noted director, Edouard Regina, foremost actor of Russia and the Balkans, and Eugene Schuefftan, inventor of a process that is said to be revolutionizing the present system of motion-picture photography.

UNITED STATES TIRES ARE GOOD TIRES

A group of factory buildings on the United States Rubber Company's plantation at Kisanan, Sumatra, including four Sprayed Rubber Producing Units. More of these plants for producing Sprayed Rubber are being built throughout the Far East by the United States Rubber Company.

**Answering some Questions  
about the New "Sprayed Rubber"**

**Q—What is Sprayed Rubber?**  
A—It is an entirely new form of crude rubber produced from rubber latex without the use of smoke or chemicals.

**Q—Who produces it?**  
A—The United States Rubber Company.

**Q—Where?**  
A—In Java and at its rubber plantations in Sumatra and on the Malay Peninsula, by means of a special patented process discovered by its technical staff and by means of special patented apparatus also designed by United States Rubber Company technicians.

**Q—What are its advantages?**  
A—It is used in just the same manner as any other form of crude rubber—but being produced without the use of smoke or chemicals, it is cleaner, more uniform in texture and has a higher tensile strength.

**Q—Is it used in building United States Tires?**  
A—Yes. Millions of pounds of it have been used, and more and more will be used all the time as new plants for producing it are completed by the United States Rubber Company in the Far East.

**Q—Does the United States Rubber Company make Sprayed Rubber only from rubber latex from its own plantations?**  
A—No. The Company considers that Sprayed Rubber is markedly superior to rubber derived from latex by the old methods. Therefore it has located factory units for producing Sprayed Rubber in various rubber producing areas in the Far East, thus supplementing the supply made from the latex from its own trees.

## THE VEGETARIANS

THE vegetarians are holding their world congress in London. Feeling, as such folks always do, that to be different from the common lot is to be superior they are probably having a great time all to themselves, if an organization with a world-wide publicity scheme can be said to be exclusive.

One wonders if vegetarians are vegetarians because they want to be different, because the thing is a religion to them because they believe a vegetable diet the most healthful, or because they shudder at the thought of taking animal life to satisfy their own appetites. Do they know why they are what they are?

That most meat-eaters would benefit from eating less meat is no doubt true, but it is unnatural for man to live upon either meat or vegetable matter alone. No meat at all may be better than too much, but the same thing is probably just as applicable to the vegetable diet.

After all, do vegetarians actually fool themselves into the delusion that their food supply in nowise involves the taking of animal life? If war were not constantly waged against the myriads of lesser vegetarian creatures there would be no vegetables for the human vegetarians.

However since vegetarianism is a harmless vagary and since its converts have not yet sought to deprive the carnivorous of their fish, flesh and fowl, those whom it pleases should not be deprived of that pleasure.

## YOUTH AND PLAY

BOYS will be busy and if they are not busy doing good it is a foregone conclusion they will be busy doing evil. This suggests to society that juvenile delinquency ills must be treated by the antidote of healthful activities which leave the irrepressible age no time to get into trouble.

The Boy Scouts movement, boys' clubs, playgrounds, school athletics and summer camps are designed to give youth something to do that will develop it mentally, physically and morally. Boys reached by these institutions and movements have no time to do evil and run no risks of getting into bad company.

In this matter society must choose between two things. It can renounce responsibility for its youth and then pay for the maintenance in reformatories, prisons and other institutions of the victims of its indifference, or it can pay for playgrounds, gymnasiums, athletic fields and boys' organizations and minimize the operating costs of its penal and corrective institutions.

Youth ever is bubbling over with excess energy and must have an escape valve. If given the opportunity of working it off through healthful channels the chances are favorable that it will escape the paths of evil.

The wise community considers well spent the money necessary to provide its youth with proper facilities for play.

# The Theatre

One of these bright mornings a slightly inebriated gentleman will wander into a movie house, sit down comfortably and then suddenly go crazy, yelling "pink elephants."

There's a gentleman called Charley Bowers who can make the most impossible things appear to happen on the screen. Imagine seeing Coolidge and Ford riding up Broadway in a flivver, when they're actually three thousand miles apart! Imagine a bewhiskered lion all dressed up driving an airplane! Imagine an ocean liner hopping about like a top in a stream!

All these things and thousands more will be made possible by Mr. Bowers' new invention. He refused a seven figure offer from a British film company to produce his comedies there; instead he contracted with F. B. O. to make "Whirlwind Comedies; Gales of Laughter." They are not animated drawings, but real honest-to-goodness people and objects doing incredible things right before your eyes. The process is entirely secret.

Women in politics have at last been chosen as a topic for a film. We've been expecting it for some time. "Her Honor, the Governor," has been announced by F. B. O. from the story by Hyatt Daub and Weed Dickinson, revolving about the woman in politics. Pauline Frederick will play the title role, supported by Carol Nye, Greta Von Rue, Boris Carlhoff, Tom Santschi and others.

With the news of Lieut. Byrd's successful flight over the North Pole Al Cooke and Kit Guard film comedians, have begun a similar expedition to the South Pole. Cooke and Kit will fly in their Equator Six and are taking only four pairs of B. V. D's and some ice water. They have promised all of Hollywood souvenirs.

Lee Shubert, now in London, received press reviews by cable of "The Merry World" the international revue at the Imperial, New York, and was so impressed with the reception made by the association of American and English revue ideas, that he radioed in

## ANSWERS TO INQUIRIES

Mrs. A. M.: "Some time ago one of our Column Sisters (Mrs. McC.) asked for the following directions: Knitted Red Socks: Use natural-color knitting worsted and a number five bone croch hook. Chain 60, join, chain three to start, then make one double crochet in each stitch for two rounds. When laid flat the double fold should be six and one-half inches wide. Now work round and round in single crochet, always picking up on the back thread, till the sock is seventeen inches long. Narrow four times at regular intervals in each round till eight stitches remain. Fold double and close by working four single crochet through the double thickness."

Answer: I am sure that Mrs. McC. and many other women will appreciate these directions, for which I thank you.

## Salesgirls Dread Bargain Days

Louisa was tired. From morning until night she had been on her feet in the busy department store. No matter how she felt, she must serve her customers with a smile. Her head throbbed and her feet ached. Week after week, she felt her strength ebbing until she was in a run-down condition, not fit to work.

"My mother suggested that I try Lydia E. Pinkham's Vegetable Compound," she writes. "I took only three bottles and it brought me about all right." Through the Vegetable Compound, she found better health to do her work and she told the other girls about it.

That was several years ago. Louisa is now Mrs. L. J. Van Dyke of 1246 Spring St., Morrell Park, Baltimore, Md. She is the mother of three healthy, active children. She says that she found the tonic effect of the Vegetable Compound helpful to her during this entire period.

Every working girl knows that to do her work properly and easily she must have good health. She can not afford to lose time from her work. Girls who suffer from a run-down condition should try Lydia E. Pinkham's Vegetable Compound.

Gluten Gems: Mix together one cup of gluten flour, one-half teaspoon of baking powder and one tablespoon of sugar (if this amount of sugar is allowed by your physician—otherwise use a pinch of salt instead of the sugar). Now add one cup of water or one cup of cold, sweet milk; and stir in one beaten egg vigorously. Scrape the mixture into hot, buttered gem pans and bake

thirty minutes in a hot oven.

Just a Girl: "Would you advise including silver in my hope chest?"

Answer: No. Silver is a favorite wedding present and most brides find that they have received all the silver they need from relatives and friends. Tomorrow—Sour Milk Chocolate Cake.

ON  
Greene County History

## EARLY SETTLERS

The fact that the county seat was established in Xenia Twp., makes the history of the township center in the county seat, Xenia.

Xenia has contained more than half the population of the township for at least 100 years, and for a number of years it has contained about one-third of the population of the entire county.

So many of the early settlers of the township were residents of Xenia there is little to say concerning those who settled in the township outside the city.

Again, so many of the land-owners lived in Xenia they are identified with the city rather than with the township.

Prominent among the early settlers of Xenia and Xenia Twp. are the following: Frederick Bonner, David Laughhead, Henry Hypes, the McCoy family, Hugh Andrew, the Gibson family, Edward Watts, Col. James Morrow, Samuel Goe, James Butler, Thomas Perkins, Remembrance Williams, the Gowdy family, John Lewis, Bennett Maxey, Peter Pelham, Isaac Matland, Major William Beatty, the Calloway family, Thomas Steele and scores of other families.

## THE STICKY MORNING KISS

A sticky face upraised to mine,  
All smeared with toast and  
strawb'ry jam,  
With eyes that radiantly shine,  
And pleased to kiss that face I  
am.

Straight from the breakfast room  
she comes,  
A napped, laughing little miss  
Who gives no thought to jam or  
crumbs,  
But wants her daddy's farewell  
kiss.

Sometimes there's jam upon my  
cheek,  
Sometimes there's butter on my  
chin,  
Those fingers often leave a streak  
To mark the path where they  
have been.

A sticky kiss! That's true I say,  
A blend of love and strawb'ry  
jam  
A glorious way to start the day!  
Oh, what a lucky man I am!

# Today's Talk

## IT ISN'T WHAT YOU HAVE

Most of us make the mistake of judging a man or woman by what he or she has.

It isn't what you have, it's what you give that counts.

When that woman in the Bible stepped up and gave her mite—which was all she had in the world, Jesus immediately commented upon the fact and gave her as an example to the world of one who gave real wealth—for she gave of herself as well.

If you cash in yourself and give it gladly, this means more than the gold of the richest, no matter how large and rich the gift.

When a human being gives beauty out of his heart, it is as the perfume from the flower which

gives of all it has.

It isn't what you have, but what you give of what you have.

When the rich young ruler came to Jesus and told him that he was interested in His work and wanted to follow Him, Jesus saw at once that he loved money and so told him that he should go and sell all that he had and then to come and join Him. But when the young man heard that, he went away very sad for he was in love with what he had.

We must love the one to whom we give far more than the thing we give. Or else our gift is bare and barren.

It isn't what you have. If you have life you have more than any material gift of life. Give of what you are. And give lavishly, gladly.

It's what comes back that gives happiness—remember that.

## Modis' Mitzi

MITZI PLANS FOR THE TOURNAMENT

By Jay V. Ja

Mitzi is enthusiastic about tennis. It's a pretty sport, especially when one wears a tennis costume that a certain tennis champion made popular. It is a sleeveless white crepe de chine dress with a green cardigan sweater. The hard-won cups in the background give the atmosphere of championship.

Mitzi does look modest. Or is it guilty? She has been inspecting the cups in the background very closely. What does she want? One should decide first and then take up the sport of winning it. Mitzi wears a most becoming tailored two-piece dress made of madras shirting material.

Golf is such a fascinating game. Mitzi is thinking that it should be taken seriously. Here you see her looking very handsome in a sweater with stripes across it. Perhaps it would be nice to win a cup or two and have one's name engraved across the front, Mitzi thinks.

This street costume means that Mitzi has given up sports. Some one elected her Chairman of the Committee to buy trophies. That places her in an awkward position. How can she go out and win the cup she has bought herself? (Personally we feel that the only cup Mitzi will ever possess is the one she buys herself).

## INDIANS LOSE TILT TO BELLBROOK NINE

Pitcher Lucas struck out twelve batters but was ineffective with runners on bases and the Xenia Indians lost for the second time 6 to 3 to Bellbrook, Sunday afternoon at Ringer Park.

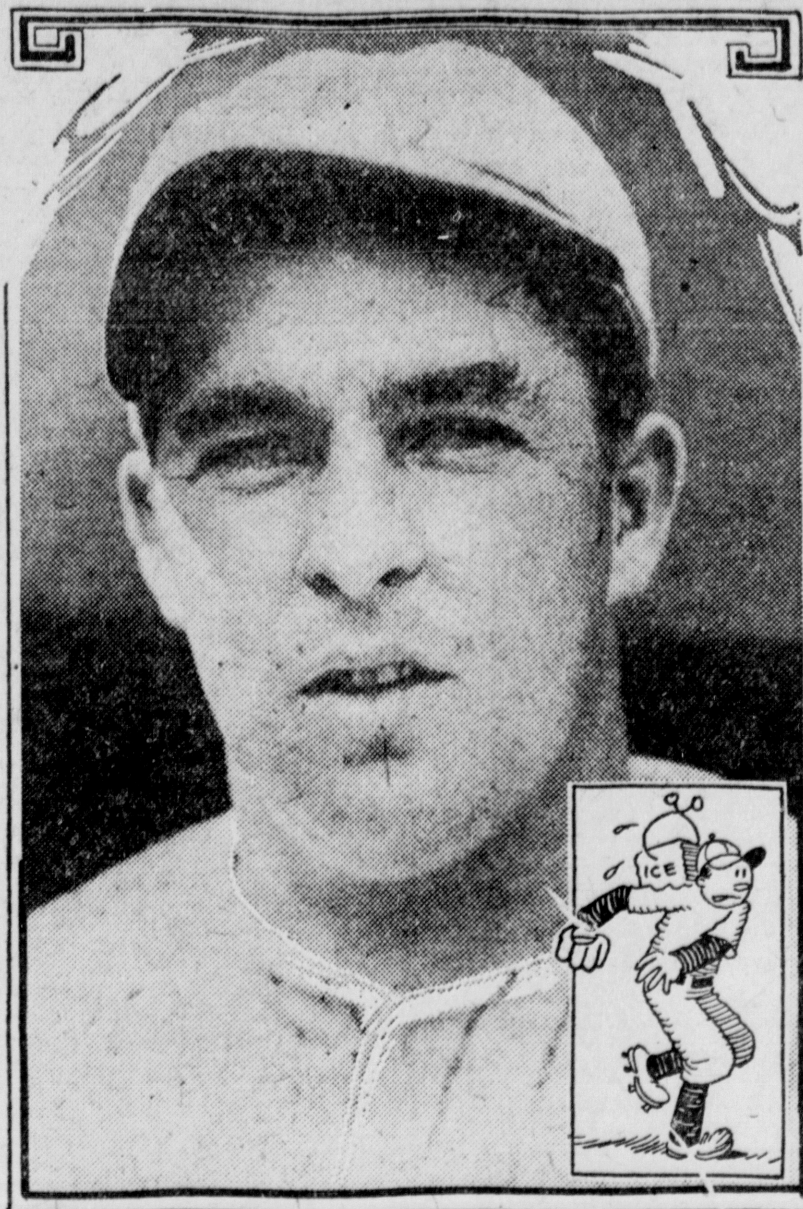

The Indians outthrew the visitors fourteen to ten but failed to use their safeties to best advantage. Three double plays by the Bellbrook infield also killed promising Xenia batting rallies.

McCarthy enjoyed a field day at bat for Xenia crashing out four hits in five times up.

The Indians will open a three-game series with Morrow next Sunday afternoon at Ringer Park.

Manager Minor announces a new battery has been signed up for the initial contest and that several new faces will also appear in the infield.

## Keeps Cool in Hot Water

Fred Fitzsimmons, young pitcher with the New York Giants, is drawing attention these days as he labors to bolster the wobbling staff of the team. Fitz is by no means a graceful hurler and seems constantly about to find himself in hot water as a result of a few hits or passes, but his calmness under fire has saved the day for him frequently.

## YOUNG IRISHMAN IS WINNING MEDALIST FOR BIG GOLF TITLE

WILLOWICK, Country Club, June 15. — A red-faced, sandy-haired young Irishman with a turned up nose ran into a telegraph station at Willowick late Monday night and scribbled happily on a cablegram blank.

Some time today in the village of Portruss, nestled in the green hills of Antrim County, Ireland, a motherly little woman will read with shining eyes how her boy, John, who immigrated to America when he was scarcely big enough to button his own suspenders, won his first major golf medal.

He now steps into national limelight with other qualifying medalists of the country as a contender for the United States open crown at Columbus next month.

Who is Jack Thompson? The gallery asked Monday when cards were posted in the starters tent. A big crowd had swarmed all day at the heels of Larry Nabholz, Lloyd Gullickson, George Hargent and D. K. White.

Not a soul trailed the little, sunburned Irish lad. He played shot after shot in silence.

When the leading players from Ohio, Kentucky, West Virginia, Pennsylvania and New York had posted their best, the young colt, unhonored by a gallery, unsung by fair way experts, flashed through with a brilliant 141 to take the medal.

Thompson shapes up as Ohio's best bet at Scioto July 8 to 10. He was born at Portruss, Ireland, 22 years ago. He started playing at 5. He starred in his teens at Darvick in Antrim where he played quite a bit with Major Hezlet, who was prominent in the recent British amateur. Thompson emigrated to America and came directly to Cleveland where he served as assistant pro to Rudy Fieitz for three years. He now is assistant to his brother Bill at Congress Lakes.

## BASS SEASON WILL OPEN ON WEDNESDAY

Devotees of the lake and stream will be in their element Wednesday, which marks the first day of the open season for bass fishing, according to Karl Keller, game protector.

Keller announces that in the inland fishing district of the state black bass may be caught only from June 16 to April 30, 1927, both inclusive, giving fishermen more than ten months in which to enjoy this sport.

Black bass less than eleven inches in length may not be taken and no fisherman may catch more than twelve in any one day. Penalties provided or violation of these laws will be assessed, the game protector warns.

Many parts of the county where spawning has been in progress are now open for fishing.

## MARSH FOUNDATION NOT SUBJECT TO TAX SATIS STATE COURT

COLUMBUS, O., June 15.—The state supreme court today reversed the court of appeals of Van Wert County and the trustees of the Marsh foundation of Van Wert, won their fight to enjoin the collection of taxes on the foundation's real estate.

The trustees had claimed the real estate was non-taxable because it was used for charitable purposes.

This contention was sustained by the court.

The will of George H. Marsh, created the "Marsh foundation," a public charitable and educational trust. During 1922 and 1923, the auditor of Van Wert County, placed the real estate owned by the foundation on the county tax duplicate and declared taxes should be collected by the county.

Judge Harry L. Conn, state superintendent of insurance, as one of the trustees of the foundation brought suit in Van Wert common pleas court to enjoin the collection of taxes on the ground the foundation was "purely a public charitable and educational trust."

The Van Wert Common Pleas Court decided in favor of the trustees and enjoined the county from collecting taxes during these two years.

But a decision of the court of appeals held that inasmuch as the foundation had not "pursued full and complete administrative remedy for the correction of wrongs" taxes were to be paid the county. The supreme court decision today reverses the appeals court.

Armed with pencils and paper, twenty-seven men appointed by County Auditor R. O. Wead, City Commission and City Board of Education to conduct re-appraisal of real estate in Xenia, began the task of actual field work in the business and residential sections of the city Tuesday morning.

After four or five tracts of property have been appraised and values estimated, the appraisers will meet with Auditor Wead at the

Cot House Wednesday morning at 10 o'clock for a second conference before proceeding again.

The appraisal of Xenia real estate began Tuesday is the first to be conducted in this city and in the county for sixteen years.

# MAYOR'S PROCLAMATION GIVES SESQUI-CENTENNIAL PLANS

Plans for Xenia and Greene County's part in the nation-wide celebration of "American Independence Week" were practically perfected at a meeting of Mayor John Prugh at city hall Monday afternoon.

A three-day program of observance has been outlined and it is urged that a united and uniform effort be made in accordance with the program for the week from June 28 to July 5, inclusive.

Mayor John Prugh invites active support of the plans and has promulgated a special message in the form of a proclamation calling upon the public of the county to join in carrying out the patriotic and educational features of the program. His proclamation follows:

"A bell service will be held at noon Monday, June 28, 'Patriots' Pledge of Faith Day.' The mode of procedure will take the form of bell ringing as the 'Echo of Liberty Bell.' At 11:11 a. m. either the fire bell or Court House bell will be tapped thirteen times, one stroke for each original state. At the end of the bell ringing all work and activities will cease during a five-minute silent period.

"Then for five minutes all citizens are asked to uncover and

heads of all industries, department heads and factory and business heads will read the oath of allegiance to our flag to employees re-dedicating their loyalty to their country.

"Then at three taps of the bell, all bells and whistles of schools, churches and factories will blow for five minutes.

"A community service is scheduled for Monday evening at 7:30 o'clock. All citizens of the county are asked to meet at the Court House for a band concert and a short patriotic address by County Auditor R. O. Wood with a general justification afterwards.

"Thursday night, July 1 there will be a community sing embracing the entire county when citizens will join in the combined singing of the old-fashioned patriotic songs.

"On Sunday, July 4, 'Jefferson Centennial Day,' celebrating the 100th anniversary of the death of Thomas Jefferson, author of the declaration of independence, the various churches will have patriotic sermons and music. Let us have everybody in church."

During the colorful three-day observance citizens and merchants are requested to display the American flag in front of business houses and at residences. Merchants should also decorate their stores in patriotic colors, it is said.
